Skinny Skribbles

Around And About Town

With C. F. SKIRVIN

We have flowers which bloom in the spring, according to "Pinafore," and then in this amazing soil fertility of Southern California, we have flowers which bloom over night. Two diligent young floriculturists were recently amazed over results. They toiled skillfully and energetically listened attentively to radio lectures on the idiosyncrasies of flowers, how to nurse 'em and pet 'em, with results not entirely satisfactory. Their efforts were observed by an interested friend, whose sympathetic nature was unable to resist the temptation. So he decided that love's labor should not be lost, and he planted a flower here and a flower there in the garden of love and expectation. He didn't mess around about it, either. The flowers he bought from a 10-cent store may have lacked fragrance, but the appearance was natural. Imagine two lovely ladies, flushed with the unexpected sight of blooms in their gardens, exclaiming to each other, "How beautiful!" Well, to get to the finale: That bunch of artificiality, in some mysterious manner, was on Ernie Winbiger's desk when he arrived at his office Friday morning, accompanied by a few verses of sentimentality breathing faith and affinity—with some reservations.

That fellow who sent his congressman a 62-cent telegram, collect, got something for his time and vote.

Ever have some one ask you to get them some information which they themselves could obtain if they did the simple things you did to get it. For example: Where does one live, how does he spell his name, what does he do, etc. And practically all of the information sought for was between the pages of the county directory or telephone book, but not so much between the two ears of the fellow who asked you the questions. Giddap, Napoleon, looks like rain.

Legal barriers to the distribution of the "Sunrise" edition of The Santa Ana Journal have been removed, both by municipal and superior court decisions. Now when the "Sunrise" visits you every Wednesday morning you will know it is a legally accredited publication. The Journal's purpose from the beginning has been to increase information, both from the standpoint of news and advertising. That purpose and right has been clarified by the courts. The Journal will continue to strive to merit your good wishes and acceptance.

"Bud" Levin's elimination wrestling contest with eight big men and strong to the mat, has been settled for a week. There doesn't seem to be anything permanent about wrestling. It's like a permanent wave—which isn't.

Anxious citizen inquiring about rain for next year. I dunno. Haven't had time to make up the 1939 forecast.

And, says a man who knows, no damage to fruit or trees from Thursday's high wind. Some beneficial results drying out around the tree trunks. You remember we had too much rain all at once. So the wind really helped, which again proves that it is an ill wind which blows nobody good.

The boys who play the horse races do not just guess. They figure out their selection by mathematical precision, and even then the other horse wins. 'Taint funny, McGee.

Missed my coffee at the cafe Friday morning, so I'm one salutation short.

Ask the man who drives one, if you want to know when the bus will or will not pass your door. That's what I did and got the right answer.

With the ladies mind on Easter and the men's mind on golf, collecting personal paragraphs isn't so prolifically profitable. Occasionally I get a few fishing items, and intermittently a little dirt which isn't any good for social gardens. So little Fauntleroy (skip the Lord) goes seemingly merrily along, but not content with the harvest.

FR Minimizes Bill Defeat

Death Of Measure May Hasten End Of Congress

WASHINGTON, (AP)—President Roosevelt said today that house defeat of his government reorganization bill offered "no occasion for personal recrimination and there should be none."

WASHINGTON, (AP)—Administration leaders, reviewing the crushing house defeat of the government reorganization bill, said today it might hasten adjournment of congress. Speaker Bankhead said killing of the measure, which prompted President Roosevelt to say he did not want to be dictator, might shorten the session.

MUELLER KIN IN WILL ROW

Children Ask Court To Break Document

Four children of the late Mrs. Emma Mueller of Orange started court action today to break her will, leaving a \$130,000 estate to them and their brother, Royal Mueller.

Meanwhile Superior Judge H. G. Ames refused their petition to remove their brother as special administrator of the estate, but ordered his bond increased from \$8000 to \$20,000.

They charge in a will contest filed yesterday that he took unfair advantage of his aged mother, and induced her to will to him almost half the estate instead of one-fifth. Their mother, they alleged, was not competent to make a will on Oct. 19, 1934. And practically all of the information sought for was between the pages of the county directory or telephone book, but not so much between the two ears of the fellow who asked you the questions. Giddap, Napoleon, looks like rain.

Royal Mueller, under terms of the will he filed for probate, was (Continued on Page 2, Col. 4)

MINERS SEND OUT THREAT

GRASS VALLEY, (AP)—Protests to federal authorities and an attempted "march" on the state capital at Sacramento were miners' union leaders' response today to what they declared were vigilante attacks in this California gold producing center.

The march on the capital by 200 miners, some accompanied by their wives, was halted at least temporarily late last night by Sacramento and state police.

GOVERNMENT SPEEDS FLEET

WASHINGTON, (AP)—The administration, speeding its fleet expansion program, hopes to have six battleships under construction by the end of this year.

Two may be monsters of 43,000 to 45,000 tons, though informed sources said today no decision has been reached on that point.

After a conference with President Roosevelt, Assistant Secretary Charles Edison and Admiral William D. Leahy, chief of operations, said yesterday at the White House the navy planned to start work before Dec. 31 on the two capital ships for which funds are provided in the pending \$530,000,000 naval appropriations bill.

New York vs. New York
That's the 1938 World Series lineup as seen by Dillon Graham, star sports writer for the AP Feature Service. Graham is hard to please. He doesn't like the Giants or the Yankees very well—but he definitely dislikes all the other teams. He tells you why in a sports-page story.

Chicagoans Harassed by Snow, High Wind

Thick snow riding a 35-mile-an-hour wind provided hard going for both pedestrians and motorists in Chicago as new storms battered the midwest with all the violence of their winter counterparts. This picture was made on Chicago's Michigan avenue, across the street from the Art Institute.

JAPS LOSING TO CHINESE

SHANGHAI, (AP)—The Chinese army high command declared jubilantly today that defeat of Japanese forces at Taiherchwang created a situation favorable for annihilation or capture of the disorganized Japanese units in that area of central China.

Chinese troops were reported converging from all directions to cut off Japanese retreating from the war devastated city of Taiherchwang, in Southern Shantung province.

These reports were flatly denied by Japanese army officers who asserted Chinese attacks on Taiherchwang, as well as Yihshien, Tsaochuwang and Lincheng, had been repulsed.

Yihshien was reported in flames. Whether a review will be granted probably will be announced on Monday.

NEW CLUE SEEN IN KIDNAP CASE

NEW ROCHELLE, N. Y., (AP)—A stolen automobile and a toy typewriter that might have been used by the kidnapers of 12-year-old Peter Levine were found by a searching party of Boy Scouts today.

The automobile, stolen some time ago, was found in a patch of woods near a small hut, hidden by trees, in Rye.

Nearby was a mound of freshly dug earth which police immediately began to turn over. There was a possibility, they said, that it was a grave.

The ashes of a bonfire, a broken pick handle and a lantern also were found in the vicinity.

Child Marriage Annulment Asked

Suit to annul the marriage of a 13-year-old "child bride" was filed today in superior court by the girl's mother, who claimed she did not consent to the ceremony.

Mrs. Rebecca Perez filed the suit against Heracleo Martinez, who, she claims, married 13-year-old Rosa Perez last July 15.

Supreme Court To Consider Townsend Plea

WASHINGTON, (AP)—The supreme court considered today whether to pass on Dr. Francis E. Townsend's appeal from a 30-day jail sentence imposed for contempt of a house committee.

He was convicted for walking out on the committee while it was investigating his proposal to pay \$300 a month to the aged. He contended the investigations had asked him "insulting" questions.

Townsend asked the tribunal to review a decision by the United States court of appeals for the District of Columbia upholding his conviction by the federal district court here.

If the supreme court denies a hearing, the sentence will remain in effect. If it agrees to pass on the dispute, arguments will be heard, followed by a written opinion.

Whether a review will be granted probably will be announced on Monday.

W. M. CLAYTON TO BE FETED

W. M. Clayton, vice-principal at Santa Ana high school, who this year is completing 36 years as an educator in this community, will be the honored guest at a dinner, Friday evening, April 29, in the school cafeteria to be tendered by his former pupils at the First street school.

Carl Hankey of San Juan Capistrano, a member of the committee arranging the affair, has nearly 1000 names of former school pupils of Clayton's. The committee is extending dinner invitations to as many of these persons as can be located. Approximately 200 are expected to attend, according to Harold Brown, another member of the committee.

In 1910 Clayton was transferred to the high school as vice-principal and teacher of mathematics, which positions he has held since board of education records show.

The committee in charge of the event includes: Bob Spurgeon, Chester Congdon, Harold Brown, Dr. Emmett Raitt, Mrs. Gunning Butler, Pat Turner, all of Santa Ana, and Carl Hankey of San Juan Capistrano. All of these persons are former pupils of Clayton's.

LABOR BOARD GIVES ACTION

WASHINGTON, (AP)—The labor relations board decided today that the Republic Steel corporation had violated the Wagner labor disputes act on eight counts before and during the bloody "little steel" strike last summer.

The board ordered the company to reinstate 5000 strikers with pay starting from yesterday.

Break up its employee representation plan in its five Ohio plants. Reinstate with back pay 27 employees discharged before the strike.

Compensate employees of the Canton tin plate mill and the Massillon works for pay lost during a shutdown from May 4 to May 19, 1937.

The board said the company had violated the act by: Domination of the employee representative plans.

Discharge of 27 employees for union activity.

Shutouts at Canton and Massillon.

Spying on its workers and vilifying the Steel Workers Organizing committee (CIO).

Inciting violence.

Giving fear and sickness gas to the city of Massillon.

Supporting the Massillon Law and Order league.

Activity in connection with the fatal shooting of three strikers in Massillon.

Security Test Decision Made

WASHINGTON, (AP)—The first major invocation of the securities commission's power to forbid dividends denied the Columbia Gas and Electric corporation, a registered holding company, permission today to make payments on common stocks this year.

There was no announcement of general policy from the commission, but informed persons said this authority undoubtedly would be asserted whenever the commission found the payments would endanger a company's financial status.

C. G. and E. was granted permission to pay dividends on preferred and preference stocks.

Candidates Put Finishing Touch To Campaigns

Industrious seekers of municipal positions were nearing the end of a month-long campaign for city council jobs in 12 Orange county communities today. The election is set for next Tuesday. Increasing interest in the officeholders' race is presentation of two bond elections totalling more than \$200,000 in beach cities. Huntington Beach voters will ballot on a \$100,000 bond proposal for purchase of a large amount of beach frontage, while in Seal Beach \$101,000 in bonds are sought for construction of a new recreational pier.

SLAYER TRAIL 'PICKED UP'

Clue Found in Deaths Of Mother, Daughter

EL PASO, Texas, (AP)—Authorities today announced they had picked up the trail of the probable slayers of Mrs. Weston G. Frome and her daughter, Nancy, California women tortured and slain on the west Texas desert ten days ago.

"I believe the trail of the slayers of Mrs. Frome and Nancy has been located for the first time since their bodies were left on the desert," said Sheriff Chris Fox, head of the investigation into the baffling case.

The trail was picked up at Del Rio, Texas, 400 miles southeast of here on the international border, and possibly led to Sonora, Mexico, and San Antonio, Texas, Fox said.

The figures in the development are a blonde woman and a man driving a black coach (Plymouth), seen a week ago at Del Rio and remarked upon by witnesses for what seemed peculiar behavior.

Black Magic Flag In Indian Baroda

BOMBAY, (AP)—"Black magic" was banned by law today in the Indian state of Baroda.

The government published a special bill providing for six months imprisonment and a fine for "all means deemed uncommon or miraculous."

Scout Hero

Kenneth Valentine, local Boy Scout, recently rescued a woman from the Los Angeles river after she had been thrown from a bridge following an automobile crash. He probably saved her life by quickly applying a tourniquet above a freely-bleeding gash in her arm.

Miss Leland appeared before Judge Atwell Westwick of Santa Barbara county and asked for probation. The jury disagreed at her first trial when she was charged with 25 counts.

In granting probation, Judge Westwick said the charge developed through carelessness of past grand juries, and the defendant should not bear the brunt of the charge. The district attorney's office informed the court that past grand juries had knowledge of irregularities in the collector's office.

Russia Accuses Poland of 'Spying'

MOSCOW, (AP)—Soviet Russia has protested to Poland against purported attempts to spy through the questioning of travelers leaving Russia for Praha, Czechoslovakia.

The Russian government charged that foreigners leaving the country were questioned by Polish consuls about loyalty of the red army, and about Soviet air fields, roads and factories.

Tin Helmet for Bull Is Found Impracticable

AUDUBON, Iowa, (AP)—Farmer P. J. Thienlen invented a tin helmet for his stubborn bull. The helmet had peepholes permitting the bull to see only straight ahead so he wouldn't follow Farmer Thienlen around his yard and butt him.

Yesterday Thienlen took off on a zig-zag course toward his windmill, figuring the bull wouldn't see him.

But the bull heard his feet rustling through the cornstalks and set out in hot pursuit. Thienlen made the windmill just in time.

Today he's working on a new helmet for the bull—this one sound-proofed.

Dredge Firm Workers Find Woman's Severed Head

CLEVELAND, (AP)—Dredge company employees reported to detectives today they had sighted a woman's severed head floating in the Cuyahoga river as detectives searched the banks of the river for some clue to help in identifying the eleventh victim of Cleveland's "torso killer."

The dredgers said they had seen the head a short distance below the point where a portion of a dismembered human leg was found by a WPA worker yesterday.

Members of the homicide squad, searching the muddy industrial stream for other sections of the body immediately began a search in boats in the area designated by the dredgers.

Coast guard vessels carrying detectives began a close survey of the river after yesterday's gruesome discovery.

As the search proceeded, Corporal Dr. Samuel Gerber, who has studied and minutely charted each of the mysterious killings, said the slayer was becoming more "fiendish" with each new killing.

Dr. Gerber said that while the early male victims were merely decapitated and emasculated, the tenth victim apparently had been cut into eleven parts. The head of the tenth victim, a man, never was found.

The human segment found yesterday, a section of leg from knee to ankle, seemed to indicate, he said, that the body of the newest

victim likewise had been dissected into many parts.

"The killer wants to show off his cunning more and more with each slaying," Dr. Gerber said. "He doesn't want his victims identified."

He repeated earlier assertions that only three classes of persons could have committed the crimes—"a butcher, a doctor or a skilled hunter."

The coroner said he believed the

eleventh victim was a small woman between 25 and 30 years old. He said he was awaiting results of an X-ray photograph of the leg to make a definite determination of sex.

Detectives said that a number of garments of a small woman were found in January in the southeast section of the city, but they were not inclined to connect it with the latest killing immediately, because of the long lapse of time.

RELIEF PROMISED FOR STORM STRICKEN MIDWEST, SOUTH

Warmer Weather Forecast as Death Toll Climbs to 42 in Floods, Tornadoes

CHICAGO, (AP)—Forecasts of rising temperatures betokened relief today to a vast area of the nation buffeted for three days by rain, snow, sleet, and tornado winds. Warmer weather by Sunday was in store for most of the snow-clogged Middle West and the rain-

Mexico Seeks Bonds for Oil Land Payment

MEXICO CITY, (AP)—The issuance of "economic redemption" bonds in the federal district was contemplated today as a means of helping relieve the financial situation precipitated by expropriation of the foreign oil industry.

A committee headed by Dr. Jose Siurob, chief of the federal district department, drafted plans for floating the bonds. It was said that it would be the "patriotic duty" of federal district employees and workers to subscribe.

This plan was brought forth while congress prepared to issue Monday to a 100,000,000 peso (about \$24,750,000) bond issue to compensate the 17 British and American oil companies for holdings nationalized by President Lazaro Cardenas.

That wasn't any waiting to it. That watchful waiting wasn't any good for job press feeding during my apprenticeship.

Sometimes a man swings an ugly verbal vocabulary than fists.

J. Ruben Clark, gray-haired official of the Latter Day Saints church, says "society owes no man a life of idleness, no matter what his age." Having arrived at "some age," and still trying to carry on, I'm tipping somewhat in the direction of the churchman's opinion.

This is a story without names: When it comes lunch time, and you do not have anything to eat with, and I don't mean knives and forks, says my friend, you retro-spect those better days when the main was easy and you didn't appreciate them. It is surprising the confidences which filter through my acoustics from men who review the past and the present. What makes me proud of the unfortunate souls is that they tell their hard luck experiences with a smile.

Famous last words: There ain't any.

DEATH'S LAID TO CARBON GAS

BAKERSFIELD, (AP)—The death of William Golding, 40, deputy county coroner, was ascribed to carbon monoxide poisoning in an autopsy report today.

Golding's body was found in his automobile on the Mount Breckenridge road with the motor still running.

On his back, apparently scrawled with lipstick, was the word "alone."

Despite two cryptic notes found indicating Golding may have been a kidnapping victim, Coroner N. C. Houze said he would call it a suicide if the writing on Golding's back could be explained, but that so far he had no definite opinion about the case.

Processing Taxes Proposal Delayed

WASHINGTON, (AP)—Debate of a proposal to levy processing taxes delayed today a senate vote on the general tax bill.

Senator Pope, Democrat, Idaho, offered an amendment to impose processing taxes on corn, cotton, wheat, rice, tobacco and synthetic fibers.

Pope asked that these levies be attached to the senate finance committee's bill. He said they would add \$212,000,000 a year to the \$500,000,000 now available for farm benefits.

Puncture Vine Cause of Suit

Foreclosure of a \$24.75 lien on an Anaheim ranch for eradication of puncture vine was asked today by the county, in a superior court suit against J. T. Johnson, the Corporation of America, and the Bank of America, owners of the land. Eradication was done by agricultural commissioners' deputies, the complaint alleges, after the vine was discovered on the ranch last year and the owners failed to eradicate it.

Unconfirmed

A story used in French newspapers was that while imprisoned by Nazis in Belvedere Palace, Vienna, Kurt von Schuschnigg, former Austrian chancellor, had married Countess Vera Fugger (above). He has been a widower since 1935.

All Germany Astir Over Publicized 'Holy Election'

BERLIN, (AP)—All Germany, with its legal acquisition, Austria, was astir today as though it were choosing a president in a holy election.

The nation was preparing, both solemnly and jubilantly, for what thousands of spellbinders have been attempting to popularize since March 20 as the "holy election."

While a 100 per cent affirmative vote seemed assured some Nazi officials said the majority might total only 80 per cent.

Among the voters will be several American women who married Austrians.

The United States consulate was said to have advised against voting because such action might be a factor in determining loss of American citizenship. But the pressure to vote has been so great the women indicated they dared not abstain for fear of jeopardizing their husbands' positions.

SUDEN BUYING IN QUICKSILVER

SAN FRANCISCO, (AP)—A sudden flurry of buying in the California quicksilver market today mystified representatives of California mine operators.

During the past 10 days orders have been filled for 700 flasks, at a total cost of more than \$50,000. The demand was in emphatic contrast to the lassitude that has long afflicted the market.

The orders were placed through San Francisco banks instead of through customary channels, increasing the puzzling phases of the activity. The banks declined to disclose the identity of purchasers.

'Ja' Votes Beat Gun In Holy Land

HAIFA, Palestine, (AP)—The Holy Land's aryan Germans beat the pietistic gun and registered their "ja" votes on union of Austria a day early.

Thousands of gay reich nationals streamed to Haifa from all over the country and boarded the piobescite gun and registered their "ja" votes on union of Austria a day early.

The trip was made today because the Milwaukee could not stay over for Sunday.

Hoover Lauds Defeat of FDR's Reorganization Bill

SAN FRANCISCO, (AP)—Former President Herbert Hoover, just returned from some dictator-ruled countries in Europe, today hailed as America's most "heartening news" the defeat of the administration reorganization bill, which opponents charged would give President Roosevelt virtual dictatorial powers.

Addressing a home-coming mass meeting on "challenge to liberty, 1938," Mr. Hoover departed from his prepared text to comment on the bill, which the house of representatives voted to return to committee, a move which usually means death of a measure for the current session.

left a 32-acre orange ranch near San Luis Rey which his brother and sisters contend is worth \$50,000. Several other properties in Orange county, assertedly worth \$83,725, were left principally to the four children, with Royal Mueller given part of her residential property on the coast.

The contestants, sisters and brother of the present special administrator, are Edwin Mueller, Mrs. Dora Rohrs, Mrs. Emma Bandick and Mrs. Sophie Klatt, who had demanded that their brother and his attorney, R. C. Mize, produce a will assertedly made by their mother prior to the will which he filed for probate. They claim that their mother and their deceased father, Dr. Charles Mueller, had agreed on an even distribution among the children.

WELFARE SUIT TRANSFERRED

Hollister and George Casparie, defendants in a \$75 suit by the county to recover welfare money paid their aged mother, today had succeeded in getting the case transferred from superior court to justice court.

Superior Judge G. K. Scovel yesterday afternoon sustained a demurrer entered by A. E. Koepel, attorney for the defendants, on a constitutional provision holding the legislature powerless to pass local or special laws affecting justice court jurisdictions.

Sheriff Disarms Sugar Pickets

In an effort to forestall further violence at the California-Hawaiian sugar refinery at Crockett, Calif., scene of a bloody battle April 6, Sheriff John Miller confiscated an assortment of rubber hoses and ax handles from various pickets. CIO men re-established a picket line at the plant after being driven away during the pitched fight which was broken up by tear gas.

NEW VIOLENCE SEEN IN STRIKE

CROCKETT, (AP)—Women and children were ordered from their homes in the Crockett battle-ground of the AFL and the CIO as county authorities prepared to deal with threatened new violence today growing out of a strike at the California-Hawaiian Sugar Refinery plant.

Sheriff John Miller, saying he was "determined to protect lives at all cost," armed his forces with tear gas to be used as an anti-riot weapon.

The sheriff's evacuation orders to "non-combatants" in the labor war came on the eve of a move by CIO unionists to begin mass picketing today at the sugar plant, largest in the world, closed since the campaign over the slating of Charles Alvin Jones, Pittsburgh attorney, for governor. Kennedy is secretary-treasurer of the CIO's United Mine Workers.

Health Insurance Plan Studied

WASHINGTON, (AP)—The social security board is studying the advisability of a federal health insurance program.

Under the proposal, the federal government or the states would pay benefits to wage earners and low-salaried workers while they were out of work because of sickness, but would not undertake to provide for medical service or hospitalization.

Officials said the cost probably would be covered by a payroll tax to be shared by employers and employees, similar to the old age annuity tax.

McMillan Leaves \$35,000 Estate

James McMillan, who died Feb. 2, left an estate appraised at \$35,549.41, Inheritance Tax Appraiser Howard Irwin reported today. The estate consists of \$7424.41 in cash and several parcels of real estate.

Gold Job

Confirmation recently given by the senate assures Mrs. Nellie Taylor Ross, former governor of Wyoming, a second five-year term as director of the mint and keeper of Uncle Sam's gold hoard valued at \$12,780,000,000. First woman to head the mint, she supervised storing of \$5,000,000,000 in gold at Fort Knox, Ky.

FR BILL DEATH IS MINIMIZED

(Continued from Page 1)

White House that "for the present I have no plans connected with the bill." He noted, however, the house already had passed two reorganization bills which are pending in the senate.

One house leader, reflecting on house defeat of the big reorganization measure, predicted it had lessened chances for enactment of the revised wage-hour bill at the session. Chairman Ramspeck (D., Ga.) of the house subcommittee which redrafted the wage-hour measure, said the sentiment expressed by the house on reorganization would militate against the wage-hour bill.

Ignoring fervent pleas of party leaders not to proclaim to the nation a "lack of confidence" in the chief executive, 108 Democrats revolted and joined Republicans to bury the measure in a committee pigeonhole, 204 to 196.

The death blow to the measure, which some foes asserted would make a dictator of the President, came as a surprise and a shock to Democratic chiefs.

Before the vote, Speaker Bankhead (D., Ala.) told members of his party, that rejection of the measure would be interpreted "in blazing headlines as house 'reprobation' of the President of the United States."

The 204-to-196 votes returned the bill to the house committee on reorganization.

On the vote, 108 Democrats joined 88 Republicans, six Progressives and two Farmer-Laborites to defeat the measure. Voting against shelving the bill were 191 Democrats, three Farmer-Laborites and two Progressives.

The rebuff to the President was comparable only to that of the senate's rejection of his court reorganization bill last year.

On both issues, the administration made determined fights, only to suffer defeat. Whereas its attitude was "no compromise" in the court struggle, this time it made concessions. The motion to recommit was offered by a Republican, Representative Taber of New York.

Democratic Leader Rayburn of Texas and Speaker Bankhead, then appealed to Democrats on a party basis not to accept it.

They told the legislators, just before the roll was called that recommitment would be a "lethal blow" to the bill and a clear display of lack of confidence in the President.

That an avalanche of telegrams and letters from constituents asking defeat of the bill influenced the votes of many Democrats who opposed the bill was conceded on all sides.

The bill would have empowered the President to reshuffle or abolish government agencies and bureaus.

House Holds Up Appropriations

WASHINGTON, (AP)—House leaders held up final action today on the war department appropriation bill, passed in different forms by both branches of congress, because of the \$43,000,000 which the senate voted for sea coast and anti-aircraft defense.

The house approved a total of approximately \$447,000,000. The senate raised it to about \$490,000,000.

Bombers Blast Tortosa as Rebel Drive Continues

HENDAYE, France, (AP)—Insurgent bombing planes blasted the defenses of Tortosa today to clear the way for a march of General Franco's shock troops to the Mediterranean in Southern Catalonia.

Forty thousand of Gen. Garcia Valino's legionnaires intensified their drive on the city where the broad Ebro river delta forces the Barcelona-Valencia coastal road to curve inland.

The insurgents made a wide encircling movement designed to trap an equal number of government troops entrenched in the Sierras that flank the narrow defile of the Ebro valley where the river breaks through to the sea.

Twenty-eight miles to the southwest a second insurgent column advanced within less than two miles of San Mateo.

With its advance guards virtually on the outskirts of that important northern Castellon city, the main body of insurgents covered the highway to Vinaroz and the sea less than 12 miles to the east.

situation "with calm and assurance," he said.

The "strong man" of successive Peoples Front ministries, who before has been summoned to form governments when the nation was faced with the danger of civil disension, declared France could not afford to be without a government with Adolf Hitler's Austrian prebiscite coming up Sunday and the Spanish civil war nearing an acute stage.

The minister of defense and war asserted he would be able to form a government whether or not socialists—strongest party in the cabinet—agreed to accept posts in the cabinet. He previously had held a long conference with Leon Blum, socialist, whose People's Front cabinet was forced out yesterday by senate refusal to approve drastic financial and economic measures.

In chamber quarters it was predicted socialists would refuse to enter the cabinet, although they might support it with their votes. The strike situation meanwhile remained unsolved. Nearly 60,000 strikers were tying up production in 34 factories, including those supplying the French air force with almost all its plane motors.

Some of the strikers hoisted red flags over factories.

It succeeded in forming the 195th cabinet in the 67 years of the third republic. Daladier faced the task of maintaining discipline and order.

Police officials issued an order forbidding an outdoor demonstration called by the Paris committee of the People's Front to protest against what they termed "seditious threats against parliament and the country."

Authorities said they were determined to prevent any manifestations which could lead to disorders during the crisis.

Girl Denies Story of Relations With Anaheim Paving Employee

A puzzling change in testimony of a 16-year-old subnormal girl today had saved Claude Guest, 33-year-old Anaheim paving company employee, from the penitentiary. But 11 members of the jury which convicted him last month did not entirely believe her second story.

Doctor Finds 98 Per Cent of WPA Workers Capable

Ninety-eight per cent of the 1079 Orange county WPA employees examined by a physician are capable of performing some type of work. Seventy-one per cent are in excellent condition.

These facts appeared today at the local works project office when a doctor who has been testing workers, completed checking the first thousand employees. Fifteen hundred more are scheduled to visit the physician.

Only 14 of the first thousand were adjudged by the doctor as being unemployable. They are to be separated from the project work and advised to seek remuneration through the SRA or other sources.

Three men were classified as being capable of doing clerical work only. Thirteen others, suffering from hernia, were temporarily placed in the unemployable class. Eight of this number, however, were reinstated after it was found they could perform a certain type of work by wearing supports.

Two hundred and eighty others are classified by the doctor as fit for moderate labor. The 769 deemed in perfect physical condition can do any type of normal physical labor, the report shows.

Journalism Honor Fraternity Forms Chapter At Jaysee

Beta Phi Gamma, national honorary journalism fraternity, today announced that Santa Ana Junior college will be granted a charter into the organization.

The official notification was received by Vic Rowland, president of the local group. According to the national secretary, Mrs. Glenn B. Marryfield, the Jaysee will be known as Sigma chapter.

Charter members will be Ed Velarde, present editor of El Don, Jaysee weekly; Rowland, first semester editor; Bob Swanson, last year's editor; Oscar Loeffers, feature editor; Jack Gardner, Gloria Kirchner, and Bob Prescott. John H. McCoy, journalism director, is faculty advisor.

The Sigma chapter will then replace the Press club which has been on the campus since 1925.

PARENTS FAVOR NEW CAMPUS

In a recent effort made by Meav club members, Santa Ana Junior college women's organization, to determine parent opinion concerning a new Jaysee campus, a unanimous vote was cast in favor of an immediate reconstruction, returns showed.

All of those questioned favored bond issues as a method of financing this project.

Among possible locations suggested by the parents were the present Hoover school grounds on Santa Clara avenue, the Paulmar school grounds, the present Tustin high school location, and the area immediately west of the Municipal bowl.

\$32,000 Crash Damages Asked

Damages of \$32,140 were asked today by four persons injured in an auto accident March 26 at Seventeenth street and Harbor boulevard.

Suit was filed in superior court against Frank G. Weber, alleged driver of one of the autos, by Pascual and Cirila Ruiz and their children, Lupe, 10, and Edward, 5. Pascual Ruiz, owner and driver of the other car, asks damages of \$25,140. His wife is suing for \$5000 and each child asks \$1000 damages.

Man Fights For Life in Crash

Critically injured when his car ran off the road and struck a palm tree on Lincoln boulevard two miles west of Anaheim early today, Aloysius E. Vanderwerth, 28, 120 North Clementine street, Anaheim, was fighting for his life in an Orange county hospital bed this noon.

The man apparently fell asleep while he was driving toward his home. He sustained several fractured ribs, a punctured lung and possible fractures of the skull and jaw, hospital attaches said.

David Howett, 27, Lincoln boulevard, Cypress, was arrested yesterday on a Fullerton justice court warrant charging petty theft. Judge Halsey I. Spence set bail at \$300.

REALTY BOARD HEARS TALK ON EUROPE

Germany's acquisition of Austria . . . Poland's treaty with Lithuania . . . And a predicted breakdown of Czechoslovakia into a canton system like that in Switzerland.

These are the three biggest "real estate deals" of recent years, the Santa Ana Realty board was told yesterday in a talk on foreign affairs by Louis Danz, Santa Ana author-lecturer-music dealer.

Danz mixed his analogies just enough to point out that Great Britain has been the "umpire" for all three deals—the last of which he said is "pending."

"War which was so imminent has disappeared into thin air," the local world traveler told the realtors. He gave majority of the credit to Great Britain for "sitting at the net and umpiring the game impartially."

Only wise step for the United States, Danz declared, is to "sit at the net" with Great Britain while the international ball is being batted from right to left. "In Europe, you have to be either Right of Left; here and in England, we have three choices."

After analyzing the recent Hitler coup in Austria, Danz admitted he was "sitting a little to the right of the umpire's bench." He said the Austrian "real estate deal," "pre-arranged with consent of both Mussolini and Chamberlain," took the pressure off one danger point in Europe, that the Poland-Lithuania truce released pressure on another, and predicted that division of Czechoslovakia into racial-group cantons would settle the third danger point.

BUREAU SPEAKER
Roy B. Wiser, president of the California Farm Bureau federation, will be the principal speaker at the Orange County Farm bureau picnic May 14 at Irvine park. Plans are under the direction of R. W. Hull.

Prizes most in demand this year will be the Charlie McCarthy doll. Last year visitors nearly all ignored the cheap plaster prizes, saved up for a \$5 or \$6 knick-knack—even if it cost \$50 to get it. They didn't seem to mind paying extra, took high pride in finally winning the gadget they'd been after.

Most consistent money-maker at the Anderson carnival: the baseball batting game, where an electrical throwing contraption always is a good crowd-drawer.

Majority of fun zone visitors just play one or two of the games, head for the dance or get on with some other Balboa diversion. Average stop-off in the zone: 45 minutes. Anderson boasts, however, that he draws a bigger percentage of participants rather than kibitzers than any other amusement park on the coast. The reasons: He specializes on the kind of games that are more fun to play than watch, and he employs no barkers to entertain empty-pocketed lookers-on.

Fun zone visitors seem to enjoy leaving their nickels and dimes there, but it takes fancy equipment to collect them, and the investment is rather startling. Anderson won't say how much, but he humbles something about a "hundred grand all told," points to the baseball machine and says the machinery and tent alone cost

Four million members of the American Federation of Labor are asked by the National Labor Committee for Civilian Relief in China to assist 30 million Chinese civilians in war torn China. The Orange county Central Labor council is deferring action on the request until such time as flood rehabilitation work is completed in this area, officials of the organization related this morning.

Chairman Matthew Wolf, of the national committee, announced that his group will extend relief to those "Chinese civilians who have been victimized by the Japanese invasion of North China."

On public exhibit for a two-week period at the Lathrop branch of the public library are numerous drawings and sketches executed by pupils of the Lathrop Evening high school art class taught by Robert Gilbert.

All work on exhibition was created in one two-hour period or less. Many of the pupils had no training previous to the class which was started last October.

Instructor Gilbert, son of Guy Gilbert, has had several honors within the last year for his art work. The class he is teaching meets each Tuesday evening from 7 to 9 o'clock at Lathrop school, 1120 South Main. Students may enter at any time and may draw from still life or model.

Week-End Tippling Gets Early Start
Week-end tippling got off to a flying start last night with four motorists landing in county jail on drunk driving charges.

Parsons, 29, Seventeenth and Monrovia streets, Costa Mesa, arrested near Santa Ana by highway patrolmen; Jesus Ramirez, 18, box 52, Atwood, and William L. Probate of the will of Welcome Lee Mayhew, who died last Nov. 30, was asked today in a superior court petition by the widow, Mrs. Alma E. Mayhew.

The personal estate, she alleged, is worth less than \$10,000 and consists of real estate interests. She also asks termination of their joint tenancy in two lots in Huntington Beach and two lots in Montebello. The will, dated Sept. 8, 1922, leaves the property to her.

I Just Found Out Balboa 'Fun Zone'

—By—
MILLARD BROWNE

Three brunettes and two blondes, vacationing U. C. L. A. coeds, were giggling and crooning an old college ditty about "A whole case of bear for the four of us . . ." as they went 'round and 'round on a new and shiny Ferris wheel. A few fraternity boys nearby heckled while one of them took a lusty swing at an automatically-pitched baseball. There weren't many other people around.

But that was two days ago. Tonight it'll be different down in Al Anderson's "Fun Zone" at Balboa. Because Balboa week is under full steam among the frolicking collegians and collegiennes, and the fun zone will do big business—between dances.

It's the beginning of Anderson's second year with the one-block amusement park, and he insists the concessions are there strictly because of a public demand for amusement. "No shills, no barkers, not a racket game on the whole block," Anderson claims. Feature attractions are "athletic" games and "nice, quiet rides."

Best-liked concessions are the "throw" games—where you toss a ball at a target, milk bottle or rag doll, take home a ham or Wimpy doll if you're lucky.

During college week, Anderson expects these throw games to be particularly active—with the coeds taking part in the same activity as the fraternity boys. Trade on the ferris wheel and merry-go-round, he figures, will be predominately feminine.

Last year visitors nearly all ignored the cheap plaster prizes, saved up for a \$5 or \$6 knick-knack—even if it cost \$50 to get it. Cars driven by B. H. Higgins, 58, London, Ontario, and Joseph G. Stup, 60, route 1 box 12, Yorba Linda, were involved in the collision, which injured Mr. and Mrs. Stup, Ruth Higgins of Ontario and Mrs. Frank Jones, 1139 South Par-ton street, Santa Ana.

Second Palm Tree Fire in Two Days
Santa Ana firemen might not get any practice these days—if it weren't for the fact that palm trees make such good torches.

The department was called out to quench a blaze in a palm tree in the parking at Leona Barnett's home, 224 Orange avenue, at 1:58 p. m. yesterday. It was the second palm tree fire in two days, and the two blazes were the fire department's only calls this week.

HURT IN BIKE FALL
Falling from his bicycle on Fourth street between Main and Bush streets early last night, Henry Lopez, 1322 Lincoln street, sustained a broken arm. He was rushed to the county hospital where attendants put the arm in a cast.

Keeler Takes Over Duties as Field Supervisor of Time Checking Here

The last "immigrant timekeeper" from Los Angeles county's WPA headquarters was ordered back to the big city today, and Kemp Keeler of Santa Ana took over duties as the field supervisor of time checking in this area. The recent investigation of asserted invasion of Los Angeles men into the Orange county district works project panorama, called for by prominent Democrats here, centered largely around the timekeeping department. E. E. Walsh, of Redondo Beach, who was acting as head timekeeper for this region, as well as in other counties, was immediately ousted from Orange county.

Since then, the Los Angeles county personnel in this department has slowly but surely dwindled here, officials report. Principal vestige of Los Angeles timekeeping dominance is in the form of a timekeeping class under the direction of a Los Angeles man who wrote the manual used by the timekeeping departments in the Southern zone.

Approximately 30 Orange county timekeepers and a similar number of other WPA workers are attending the course of instruction each Wednesday night.

Keeler was removed from his position as chief timekeeper of Orange county when the Los Angeles office took over supervision of the local readquarters several months ago, and was given the job of a traveling time checking man.

To Salt Lake
Leonard L. Hurst, manager of the local Montgomery Ward store here for the past 14 months, has been promoted to the managership of the firm's new store in Salt Lake City. He came to Santa Ana from Washington and has been prominent in civic organizations here.

Metzgar Loses One More Parking Fine
J. C. Metzgar, secretary-manager of the Santa Ana Home Owners Business association, who fought a losing battle against an overtime parking ticket several weeks ago, was back in city court yesterday with another police invitation.

This time he pleaded guilty, paid \$3 for overtime parking. Nine other motorists joined him in paying \$1 parking fines, and speeding levies were made against: Frank Javendetti, Los Angeles, \$15; Reginald Craid, Hollywood (speeding and failure to appear), \$11; Jacob O. Lutes, Altadena, \$8, and Mrs. H. H. Helbrush, Huntington Beach, \$5.

'IRON LUNG' FACTS TOLD
Utility of the county hospital's new "iron lung" was the principal topic at a luncheon meeting of the Crippled Children's relief association in Daniger's cafe yesterday.

C. A. Friedmann, purchasing agent for Los Angeles county hospital, led the discussion and told the association the respirator draws the air into the patient's lungs, rather than forcing it in as is the case with a resuscitator. Chief advantage of the "iron lung" is that its work can be continued for a longer period of time.

Dr. Harry E. Zaiser, county hospital superintendent, spoke briefly, declaring, "When it's needed, it certainly is needed at once." Both Dr. Zaiser and Friedmann pointed out the apparatus should not be handled by anyone who has had no mechanical training.

Disaster Loan Funds Available
If your bank or other lending institution refuses to furnish you with funds in taking care of needs brought on by the March 3 flood, S. L. Rogers, field representative for the Disaster Loan corporation, suggests you make application for such assistance at his office in the Ramona building, Santa Ana.

Persons eligible for such loans are required to pay only 3 per cent per year on money received and terms are arranged to suit the applicant if possible, Rodgers pointed out.

RADIO STAR GUEST
"Mirandy" of radio fame will be guest entertainer at the W.C.T.U. banquet to be held Tuesday at 12:30 p. m. at the Congregational church. Reservations should be phoned to Miss Louise Brokaw at 438-W.

Meanest Thief Gets Back Into Town
The meanest thief is back in town. He struck a cruel blow at 1025 West Fifth street yesterday when he stole the wheels and tires from a brand new toy airplane, the pride and joy of Mrs. J. D. Lancaster's small son.

FIREMEN VINDICATED S. C. Has First Blaze in 3 Years

SAN CLEMENTE.—The San Clemente fire department got a long waited opportunity Thursday evening to prove to the citizenry that it was more than an expense item in the yearly budget.

For the first time in more than three years a fire alarm was turned in and a fire truck, accompanied by a police car and some 50 privately owned automobiles raced to a new house being com-

pleted in the southern section of the city. A pile of oily rags was blazing merrily in the center of the kitchen floor. Smoke escaping around the windows attracted the attention of George E. George Oertly of Long Beach, lieutenant colonel of the 251st Coast Artillery, California National Guard, told members of the Lions club Wednesday.

The total armed force within the nation numbers about 400,000, made up of the standing army of 165,000 officers and men, 200,000 National Guardsmen and 40,000 reserve officers, he said, adding that all these departments are deficient in modern equipment. ALONG ORANGE COUNTY'S WATER FRONT

By BRICK GAINES

How, I'm asking you, is a guy going to write about boating and swimming and fishing, when he wants to be boating and swimming and fishing himself?

Can't be done, much. And, when nearly all the boatmen are at the boat show, how're you going to do anything about the sailing situation? The answer is, you aren't.

So, it looks like we'll do a little right and left-handed fishing, and retire for the week-end.

First I'm going to make the deep-sea guys unhappy. They're catching quite a few barracuda. Lure bait and trolling both.

One of Darrell King's boats (Sunshine) came in yesterday with at least 10 scoters. I know. Saw'm myself.

The fish were just up for a little while, but when they were the fishermen had a swell time. Trolling boats were getting quite a few, too. All this was down by Dana Point.

Also on King's boat was a swell catch of halibut. Several big ones—up to 15 pounds. Bass'n things, too.

The yellowtail situation, made acute by catches of nearly all the live-bait boats last Sunday, has settled down somewhat. Only temporarily, however. Not many being caught, but they're still in the water, and with such nice warm weather they should be going like wildfire right soon.

Bait still find. Both big and little. And lots of 'em.

The croaker are still biting in the bay, too. I've been thinking all the time the fishing was best above the bay bridge on the state highway, but one Ed Saleh, who works for the Journal in the stereotyping department, came by my Costa Mesa farm last night with two very large yellowfin.

Ed claimed he caught 'em. "Caught" sounds quite a bit like "bought" doesn't it? I don't believe he'd have had any luck if he hadn't been using some of my equipment, however.

In case you're interested, he got 'em between Sport Fishing headquarters just East of The Arches and Hubbards' boat landing. Which is just where I fished the other evening and didn't get a bite!

Several more large halibut have

been taken from the bay, too. Salted anchovies for bait.

In case you're planning to do a bit of bay angling over the week-end, there's a swell tide this afternoon, and if things go as scheduled, there'll be another'n tomorrow.

At exactly 6:16 p. m.—slightly later inside the bay—the water will reach the 4.4 foot mark. Not too high, not too low. She's high Sunday at 6:48 p. m. You possibly could start fishing about 3 o'clock in the afternoon, after the lawn had been mowed, and the chicken yard cleaned out, huh? And then fish until high tide. Aw, c'mon. It'll be fun!

Steve Smith, co-admiral of the Smith tugboat navy, says the Paramount people are about through with their huge Alaskan set at Corona Del Mar, where they been shooting "Spawn of the North."

The \$50,000 set now will be junked, probably. Betcha even money there'll be another movie company somewhere along the shores of the bay within a month!

Involved discussion with Harbor-master Tommy Bouchee. Mostly concerning bathing suits, while Mama Bouchee glared disapprovingly.

McN Tommy finally decided white bathing suits are the most attractive. Although there were some pink ones yesterday—

Which reminds me—Easter week-end will last several weeks this year in Balboa—has started.

Lotsa young folks around, already acquiring tans and having a general good time.

Except for the poor guys and gals who don't think yesterday's sun could be very hot, and were pretty well broiled. One guy had some blisters that looked like hot-water bottles!

Surf is much better for swimming, now. The chocolate-colored water has gone somewhere else, and there hasn't been a whole reported rubbing his tummy on the sand for more'n a week.

So, if this weather holds, you can plan that delayed Saturday night event for tomorrow in the waves!

Gloom bye until next Saturday when maybe there'll be something else besides fishing to discuss.

TOWNSEND NEWS, VIEWS

By WALTER R. ROBB

(This column deals with Townsend news and views. Any opinions which are expressed herein are not necessarily those of The Journal.)

An article by Hugh Russell Fraser in the April 4 issue of the Townsend Weekly says: "Dr. Francis E. Townsend testified briefly before the senate unemployment relief committee at the recent hearing."

"Washington observers noted with considerable amusement that it was the first time in history that a man indicted and convicted for an offense against the supposed dignity of the congress of the United States had been invited to testify before a committee of the same congress."

"The senate unemployment relief committee, under the chairmanship of Senator James Byrnes of South Carolina, administration stalwart, has been holding hearings for more than three months on various aspects of unemployment relief."

"It was because a witness before this committee—not to be confused with the ways and means committee—misrepresented the Townsend plan is a casual reference to it, that Dr. Townsend, who happened to be in Washington on that day, asked a chance to correct and present a brief explanation of the plan."

"At the request of Senators J. E. Murray of Montana, L. J. Francis of North Dakota and H. C. Lodge, Jr., of Massachusetts, Dr. Townsend was given an opportunity to present his testimony."

"However, Senator Byrnes was infuriated, and no sooner was Dr. Townsend ready to testify than Senator Byrnes left the room in a huff, explaining he had another engagement and that he understood Senator Lodge wanted to hear the founder of the Townsend movement."

"It was a case this time of a senate committee chairman walking out, not Dr. Townsend walking out on the committee."

Remember the Townsend mass meeting in Santa Ana Townsend hand at 7:30 this evening which is being sponsored by Santa Ana club No. 8. At 7 o'clock previous to the meeting on the outside of the hall the T. Dunstan Collins bank will give a concert. A program of tap dancing and saxophone solos will be a part of the evening meeting program. W. T. Hunt of Anaheim will be in charge of this entertainment feature. The speaker of the evening will be Judge George D. Higgins. J. H. Nicholson president of club No. 8, will preside over the meeting. The location is 509 West Fourth street.

Do you folks near Costa Mesa like to dance? Tonight in the Costa Mesa Townsend hall at 2204 Newport boulevard the house committee is sponsoring a dance.

Miss Bertha Belt writes that Santa Ana club No. 2 had a splendid meeting last Monday night and that the program included: An enjoyable concert by the Hurd-Lentz orchestra; singing and playing by Loren Keith, Jessie Carlyle and Shadow Carlyle. She says Senator Nathan Hale gave a wonderful address and that a good sized audience was present. The social committee reported that at next Monday evening the club will have a short entertainment program following the business session and that later in the evening there will be card playing and dancing.

Mrs. F. B. Parks of the Buena Park club No. 1 writes the following interesting account of the play "The Peppercorn Family of Grasshopper Rinn" recently put on by a cast directed by Mrs. Lillian Rockwell of Santa Ana. "The regular business meeting of the club was dispensed with except the reading of a bulletin dated March 24 from Dr. Townsend. The cast for the play came from Santa Ana club No. 6 of which A. M. Mapes is president."

"The cast consisted of Ma Peppercorn, (Mrs. Rockwell) and twelve of her darling children and a casting director from Hollywood. Each of the children was given an opportunity of demonstrating their talent—even giggling Gertie was a perfect success."

Prize awards went to Mrs. Dorothy, Gendey, Misses Juanita Dunagan and Myra Lake. Other guests were Mrs. Esther Dunham of Fullerton, Mrs. Lida Mitchell Smith and Miss Beatrice Dolf of Santa Ana, Mrs. Dorothy Lake, Misses Phyllis Shreeves, Gladys Cockerham and Ruby Aabel.

BIRTHDAY FETE IS SURPRISE

Birthday gifts were then presented the honor guest after which tables were arranged for bridge.

Prize awards went to Mrs. Dorothy, Gendey, Misses Juanita Dunagan and Myra Lake. Other guests were Mrs. Esther Dunham of Fullerton, Mrs. Lida Mitchell Smith and Miss Beatrice Dolf of Santa Ana, Mrs. Dorothy Lake, Misses Phyllis Shreeves, Gladys Cockerham and Ruby Aabel.

NEW OFFICERS INSTALLED BY P-T. A. BODY

GARDEN GROVE.—Installation of new officers for the Garden Grove grammar school Parent-Teachers association shared interest with a panel discussion at the meeting Thursday afternoon in the Washington school.

Taking part in the panel discussion on the subject "Healthy, Happy Peaceful Lisure" were Ray Adkinson, county superintendent of district president of the P-T. A. schools; Mrs. W. T. Kirven, past and Mrs. Estelle Sherman, elementary school teacher of literature. The speakers were presented by Mrs. A. J. Hayman as program chairman. A general discussion from the floor followed.

Mrs. W. M. Kelsey, another past district president was in charge of the induction rites. Those seated were Mrs. E. L. Young, president; Mrs. A. L. Schneider, first vice president; Mrs. W. M. Perkins, Jr., second vice president; Mrs. F. A. Monroe, treasurer; Mrs. A. Eichen, recording secretary; Mrs. Harvey Emely, corresponding secretary; Mrs. J. G. Lampkin, historian and Mrs. Wayne Holt, parliamentarian.

Members of the high school senior play cast presented two short sketches from the play and the fifth grade Lincoln school chorus gave two numbers. Mrs. Hayman offered an originally written tribute to the retiring president Mrs. J. A. Mauerhan after which she was presented a P-T. A. ring on behalf of the members by Mrs. Pauline Merchant. Responding she thanked the members, officers and executive board for their support during the year.

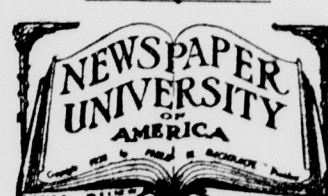

Prior to the general meeting the executive board met for a covered dish luncheon arranged by Mrs. Wilbur Harper and Mrs. F. A. Monroe.

'H. B. the Bully, Others the First-Graders'

Head-man Joe Rodgers of the Huntington Beach Oilers probably will hit the ceiling when he reads this on the divan of his Long Beach home: "It appears to me that Huntington Beach, rounding up all these star players, will be just another sixth-grade bully picking on seven other first-graders one at a time," comments Ray (Doc) Smith, generalissimo of Santa Ana's Stars.

Dr. Smith is irked no little by the appearance of Glenn Kelley, great 37 catcher of the San Bernardino Ponies, in a Huntington Beach uniform. "Doc," it seems, had a "gentleman's agreement" that Kelley was to report to work in Santa Ana two weeks ago. Instead, Mr. Kelley showed up as an Oiler, entered the employ of Rodgers in Long Beach.

Rodgers, however, did everything "above board." There's nothing in the rule books prohibiting Joe from dickering with Kelley, although President Jimmie Heffron did "crack down" on both Rodgers and Dr. Smith in a recent Anaheim meeting for negotiating with Kelley before he had his official release from San Bernardino.

Add to the Mat Mysteries of the O. C. A. C.

Why is it that Promoter M. J. (Bud) Levin keeps bringing back the so-called "Tiger" McKee to referee his Thursday night wrestling cards? It's an insult to the jungle cat to call that guy "Tiger," if his antics in the ring are any criterion. He has an unpolite if not outright unpleasant way of "getting even" with the booing fans by planting a finger on his nose. That's no way for an official to act.

Terrible Ted Christy and Bob (Call Me Tarzan) Montgomery absolutely are the two meanest wrestlers in the junior heavyweight division, yet both are mild-mannered fellows (don't confuse with "sissies") out of the ring. Why not bring back Joe Vargas as Referee "Tiger" McKee's successor? Vargas cannot handle the mat meanies as well as McKee, but he has more color, and that's what the gallery likes. And another thing: McKee is so large that when he stumbles between the wrestlers and ringside he obstructs the fans' view.

Reaching the Bottom of the Sports Barrel

Baseball has known many instances where hard-hitting pitchers have turned into outfielders, but it is unusual to find an outfielder suddenly blossoming out as a hurler. Brooklyn has one this year—Schoolboy Cohen. Six years ago he had a trial as an outfielder with the Dodgers. This spring, after a fine season for Toledo, he turned up at Brooklyn's Clearwater camp as a pitching recruit. . . . Manager Burleigh Grimes can't be accused of optimism in picking his Brooklyn Dodgers SEVENTH in the National league this year.

Orange has one of the best parks in the National Nightball league this year, what with the completion of a 1500-seat grandstand with the choice seats right back of home plate. . . . Huntington Beach also deserves a flower for adding six poles of lights to the Oilers' park, which was too dark during the Louie Neva reign on the mound. . . . Bronko Nagurski, Minnesota's 230-pound all-time fullback, and world's heavyweight wrestling champion, pinned 220-pound Jack Forsgren in Vancouver, B. C. Thursday night. . . . Stagehand, the game little colt that pulled a "double" in the Santa Ana Derby and Handicap, will arrive in Louisville Monday morning, preparatory to training for the historic Kentucky Derby on May 7. Odds have been cut to 4-1 on the Maxwell Howard entry in the blue grass feature.

WAR ADMIRAL VS. SEABISCUIT

Match Race Almost Certain

NEW YORK (AP)—Although a few details remain to be straightened out—mainly one of putting up the necessary \$100,000 purse—the match at Belmont Park between Samuel D. Riddle's War Admiral and Charles S. Howard's Seabiscuit appears certain to take American racing back towards the "good old days."

The conditions of the race were ironed out for the most part yesterday when Riddle conferred with Herbert Bayard Swope, chairman of the New York State racing commission. He found the place, Belmont Park, the date, between Sept. 15 and Oct. 1, and the conditions suggested by Howard satisfactory.

Riddle even offered to agree to a postponement in case the track should be muddy and to give Seabiscuit the post position. He did, however, suggest a walk-up start, because the Admiral is a bad actor at the post.

'FROZEN GLOVES' PLANNED!

Alaska Has Boxing Tourney

KING ISLAND, Alaska (AP)—They're brewing fistie medicine on this Bering straight island instead of the kind that comes in bottles and pills in the battle against tuberculosis and other illnesses which take their toll among Eskimos.

The fistie medicine, Fr. Bernard R. Hubbard, "Padre of the Glaciers," announced today, will be the first annual "Frozen Gloves" amateur boxing tournament lasting for three days starting next Thursday.

The tourney will conclude six months of rigorous physical training during which Ed Levin, former Santa Clara University athlete, taught the Eskimos how to sling leather instead of harpoons. This experiment to build up the resistance of the tribe by training the children with physical rather than medical correctness is gratifyingly successful," Hubbard said.

Levin agreed, saying "I would match these Eskimo youngsters against any collegiate stars of their weight anywhere."

Six teams ran nose and nose again today for first place in the Pacific Coast league's baseball race, with the San Francisco Seals a full length behind and the Oakland Oaks eating more dust than ever in the tail position.

Sacramento, Los Angeles and Seattle tied games yesterday and last night to pull up even again, as they were only two days ago, with San Diego, Portland and Hollywood.

The Seals won also, 9 to 5, over Hollywood in a night game which produced a lively fight, but remained behind the leaders by a full game.

Oakland, which has won but one game in seven starts, lost a 6 to 5 after-dark decision to Seattle.

Jack Sanford's single in the tenth inning, scoring Rip Collins and Sigmund Jackucki, gave Los Angeles a 3 to 1 victory over San Diego.

The Sacramento Senators turned in the first win of the series as they defeated Portland, 5 to 2, behind the tight hurling of Henry Pippin.

Walter Beck, Hollywood pitcher, and Ted Norbert, San Francisco outfielder, presented the stiffest exhibition at the movie city as a climax of an argument over Har-ley Boss' long drive into the center field bleachers. Umpire Falls settled the matter by ruling that Boss, who had been stopped at third after the ball bounded from the stands back into the field, was entitled to a home-run.

'Y' TO HOLD 'PLAY DAY'

The complete program for "Boys' Play day" at the Y. M. C. A. was issued today by boys' secretary, Herbert R. Thomas.

Monday afternoon's schedule starts at 3:30 with a general swim. Norman Heine acting as guard and supervisor. From 4:30 to 6, there will be a tournament of "small games" in the boys' game room. Edward Budd has charge of ping pong, Perry Smith of table golf, Dean Williams of checkers and chess and Bill Matthews of the outdoor games. Boys will select the games in which they wish to compete and will then be divided for the play.

From 6 to 7 o'clock there will be a picnic supper. Each boy is to bring his own lunch, with his name on the box for identification. Ice cream and other trimmings will be furnished by the committee in charge, but the boys will bring their own "substantials." Bob Spurgeon will supervise the dinner and activities accompanying it.

LIONETTES BOW TO COLUMBIA

Orange's Lionettes lost to Columbia Pictures, 8 to 3, in Hollywood last night to go into a tie for second place in the Major Girls Softball league at Fielder field.

Coach Vic Baden's girls meet the Bank of America club next Wednesday night, and can gain a first-place tie by winning, provided the Bank of America team loses to Young's Market tonight.

Whitehead Returns To Giants' Lineup

MEMPHIS (AP)—Burgess Whitehead, Manager Bill Terry called him the best second baseman in the league—may make his 1938 debut in the Giants' two games here. Terry has nothing but praise for Lou Chiozza, who has been filling in while Whitehead recovered from an appendectomy, but he is anxious to get Whitehead into actual competition.

Dunlap Favored In North-South Golf

PINEHURST, N. C. (AP)—George T. Dunlap, Jr., of Pinehurst and Freepont, N. Y., ruled a favorite over Frank Strafaci of Brooklyn today in their 36-hole final match for the 38th north and south amateur golf championship.

Steps Fast '440'

Clyde Jeffrey stepped a 49.7 quarter-mile as his Riverside Bengals defeated Santa Ana's Dons, 7 1/2 to 5 1/2, in an Eastern J. C. conference dual track and field meet here yesterday.

DONS 11 TO 3 VICTOR OVER CHAFFEY NINE

Limiting the opposition to five hits while sending nine batters down swinging, Big Jack McClure went the seven-inning route as Santa Ana Jaysees' baseball club turned back Chaffey, 11-3, at Poly field yesterday, in an Eastern conference game.

After getting past a rather shaky first inning in which Chaffey brought two runs on three hits, McClure steadied and allowed only one extra-base blow—a home run over the rightfield fence by Smith in the third.

The Dons scored three runs in the first frame. Harold Jessee, smart third baseman, walked and stole second. Verne Rutledge was out, pitcher to first. Burly Art Heinisch blasted a long home run to clear the bases. Art Nielbas took a free pass to first. Charles Stafford fanned, but successive hits by McClure and Frank Lopez brought in the third score.

Heinisch opened the third with a walk, Nielbas singled and Stafford struck out again. McClure got on base on the short stop's error scoring Heinisch. Lopez was out and then Ernie Barrett singled Nielbas across the plate.

Jessee walked in the fourth. Rutledge singled. Heinisch walked and Nielbas took first on an error, scoring Jessee. Stafford was safe on a fielder's choice, but Rutledge was out at the plate. McClure went down on strikes and Lopez took a pass to first forcing in Heinisch. A fielder's choice on Barrett's hit brought across the third run.

Two hits netted three more Santa Ana runs in the fifth. Meyers struck out but a base on balls to Jessee, a single by Rutledge and a fielder's choice on Heinisch's hit netted one run. Stafford doubled to score the base runners.

Tigers Won't Wear Orange and Blue

AVON PARK, Fla. (AP)—Detroit will not wear uniforms of bright orange and blue—which Manager Mickey Cochrane called "true Tiger colors"—this season after all.

Owner Walter O. Briggs has vetoed the idea. Undaunted, Cochrane opined, "I'll bet that kind of uniform will be standard equipment in a couple of years."

FAST TIMES MARK DUAL MEET HERE

Santa Ana Joysee Falls, 7 1/2 to 5 1/2

Flashing improved marks on both track and field, Santa Ana Junior college's cinder boys nevertheless took their predicted defeat from Riverside's powerful outfit, 7 1/2 to 5 1/2, at Poly field yesterday, but the performances of six Dons stole the show.

Bryant Allen, Riverside's sensational negro sprinter, turned in the fastest 100-yard dash ever seen on Poly field with a 9.7 sec. "hundred," nosing out teammate Finley Culpepper. Mercurio broke in for a third to turn the trick for the first time this season.

Hanging up the fastest 220-yard low hurdle time since 1935, Capt. Blas Mercurio blazed over the barriers in 24.7 secs., seven-tenths of a second better than his mark last week.

Mercurio should develop into a threat to Fullerton's hurdling party which has marks of 24 secs. flat. He also captured the high jump at 5 feet, 11 inches.

Walter Opp was switched to the 880-yard run and was the lone Santa Ana victor in the straight races, winning the event in 2 min. 8.1 secs. After being bottled up on the back stretch, Opp unleashed a sprint which defeated his opponent by 20 yards.

Gil Brookings, Newport's 1936 Seaside and field champion, returned to form to cop the 120- and high hurdles in 16.1 secs. for the Dons.

Les Huhn continued his fine performances, taking second in the high hurdles, third in the high jump, and a tie for third in the shot put. Jimmy Johnson was six yards behind Clyde Jeffrey in a 49.8 sec. 440-yard dash. He capped second in the high jump and a third in the low hurdles. Erwin Youel took the pole vault at 11 feet and cleared 11 1/2 on a later attempt.

DON TANKMEN LOSE TO OXY

Bob Prescott and Ken Oliphant scored first places in the 100-yard breast-stroke and 440-yard free style, respectively, but Coach Jess Haxton's Santa Ana Jaysees swimmers lost—as expected—to Occidental's larger squad 75-20, in the Eagle Rock pool last night.

The Dons won a forfeit from Chaffey's Panthers, who failed to appear for a Southern California J. C. association meet at Andrews gymnasium plunge yesterday afternoon.

NEW FILMS ARRIVING AT SANTA ANA THEATERS PROMISE MUCH

'HAWAII CALLS' AT WEST COAST

"Hawaii Calls," Bobby Breen's latest musical starring vehicle, opens an engagement at the West Coast theater today. The story is laid in the islands.

New songs, Raymond Paige and his orchestra are featured in the production. The supporting cast is headed by New Sparks, Irvin S. Cobb, Gloria Holden, Warren Hull and Juanita Quigley.

The story follows the adventures of Bobby and his little Hawaiian friend, Pua Lani, two boys who have earned their living on the streets of San Francisco.

Speculating on the possibility that racketeers might declare themselves in on popular advertising contests that offer a fortune in prizes, "Everybody's Doing It," the second feature co-starring Preston Foster and Sally Eilers, develops a fast-moving comedy.

West Coast Books 'Sunnybrook Farm'

You'd never know the old place when Sunnybrook farm becomes a new radio center for Shirley Temple's musical, "Rebecca of Sunnybrook Farm," opening next Wednesday at the West Coast theater.

Six songs by Gordon and Revel, Pollack and Mitchell, Pokrass and Yellen and Raymond Scott are offered. Randolph Scott heads the featured cast, which includes Jack Haley, Gloria Stuart, Phyllis Brooks, Helen Wesley, Slim Summerville, Bill Robinson, the Raymond Scott quintet and others. "Mr. Moto's Gamble" is the second attraction. Peter Lorre, Keye Luke, Dick Baldwin, Lynn Bari, Douglas Fowley, Harold Huber and Maxie Rosenbloom.

Broadway Books 'Her Jungle Love'

Produced in technicolor and starring such actors as Dorothy Lamour, Ray Milland, Lynne Overman, J. Carrol Naish, Dorothy Howe, Jonathan Hale and Archie Twitchell, "Her Jungle Love" will move to the Broadway theater next Wednesday.

"Her Jungle Love" is set in an isolated South Pacific isle. Jiggs, the chimpanzee, and a lion cub have important parts.

William Boyd, veteran of 18 "Hopalong Cassidy" outdoor action romances, has a new leading lady in his latest Clarence E. Mulford Natalie Moorhead. George Hayes again plays the colorful "Windy," and Russell Hayden the happy and adventurous "Lucky."

Film Industry Asks Federal Arts Work

LOS ANGELES. (AP)—Thirteen motion picture crafts and guilds in Hollywood have sent a representative to Washington, D. C., in hope of winning federal support of a film industry unemployment relief program.

The representative, J. T. Gannon, member of local 644, Motion Picture Painters union, AFL, said before departing, he hopes to carry directly to President Roosevelt a proposal that the Federal Arts project be expanded to permit the making of motion pictures by unemployed members of the motion picture industry.

Gannon explained such pictures might be released nationally to WPA theaters.

Pictures Coming To Walker's

Starting Thursday at Walker's will be shown "Hollywood Hotel" and "Change of Heart" as the two features. "Hawaiian Holiday," a Walt Disney color cartoon and newsreel rounds out the program.

'Hawaii Calls' With Music

A luau, or native ceremonial feast, is one of the highlights of the latest Bobby Breen starring musical film, "Hawaii Calls." This scene reaches the screen with great authenticity, and shows the participants regaling themselves with native Hawaiian dishes, such as poi, roast pig and other delicacies. Above are shown (at top) principals, including (left to right) Gloria Holden and Warren Hull as a navy commander and his wife, and Bobby Breen and Pua Lani as two little boys who have stowed away and later run away to one of the islands. The picture is based on the novel "Stowaways in Paradise," and has songs written for it by Harry Owens and others, and sung by Bobby Breen. Native dances, such as shown in the lower scene, are among the entertainment features of the film.

STATE OFFICERS FINE NEW BILL

Beginning tomorrow and showing through Monday and Tuesday at the State are the attractions, "She Loved a Fireman," "Idol of the Crowds," and a new serial, "Radio Patrol," chapter 1.

Some of the most spectacular film scenes ever recorded by a camera are promised in "She Loved a Fireman" which has in its cast, Anna Sheridan, Robert Armstrong, Dick Foran, Veda Ann Borg, Eddie Acuff, May Beatty and Eddie Chandler. It was directed by John Farrow.

Action aplenty is promised in "Idol of the Crowds," the second feature, starring John Wayne, Sheila Bromley, Billy Burrud, Russell Hopton, Huntley Gordon, Charles Brokaw, Hal Neiman, Virginia Brissac, Frank Otto, Jane Johns, Clem Bevins and George Lloyd. Arthur Lubin directed.

The first chapter of a new serial, "Radio Patrol," dramatized from the newspaper strip, promises much in the way of action and suspense.

Indians' Infielder Rejoins Club Today

MERIDIAN, Miss. (AP)—Odell (Sammy) Hale rejoined the Cleveland Indians today after recovering from a tonsilectomy at Hot Springs, Ark., and declared himself ready to take over the second base position. "My throwing arm is free from pain for the first time in three years," he said.

DURHAM, N. C. (AP)—A storm drove the Boston Red Sox and the Cincinnati Reds into this town a day ahead of time but they've plenty to do hereabouts. The teams will take a bus over to Rocky Mount today to fulfill an engagement. If the weather clears, and then play here tomorrow.

ROBERT TAYLOR AT WALKER'S

Walker's theater offers, starting tomorrow, "A Yank at Oxford," "Everybody Sing," "Boat Building" and news.

Robert Taylor, Maureen O'Sullivan and Lionel Barrymore are featured players in "A Yank at Oxford" which is a British-made film for Metro-Goldwyn.

"Everybody Sing," with Allan Jones, Judy Garland, Fanny Brice, has plenty of what the title implies—songs.

A Walt Disney cartoon in color, "Boat Building" is said to rank right up with other Disney offerings.

A well balanced program seems to have been booked for Santa Ana patrons of Walker's.

29 Cents of Every Dollar Spent Goes For Movie Shows

By THE RAMBLER

Santa Ana's thirty-five thousands of people spend, according to averages recently computed by the bureau of home economics in Washington, 29 cents of every dollar for amusement at the motion picture theaters.

How this is distributed among the Santa Ana theaters is impossible to compute, but it will not be far-fetched to draw the conclusion that the patronage is pretty evenly distributed, comparatively speaking.

Since the survey was conducted in representative cities, towns and hamlets of the country it may be concluded that Santa Ana may be judged pretty nearly right as to the 29 cents of every dollar spent here for movies.

Regardless of the exact percentage it is safe to say that the 29 figure is more liable to be below than above the percentage taken from every dollar by the Santa Ana.

To prove this all one has to do is frequent the neighborhood of the downtown theaters on any afternoon or night and judge roughly the number of people who pass before the box offices.

The motion picture is probably the greatest and, at the same time, the most profitable form of entertainment for all classes—the "400" proletariat and all who come in between and at either ends.

Of course the proletariat doesn't have the opportunity of the dowager has, but he's there at the box office just the same and his money is money after all.

Young and old, male and female—they insist on the movies and because of this no stone should be left unturned by Santa Ana theater managers to show the best, the cleanest and the finest film entertainment that the studios of Hollywood offer.

Managers have been known to reason: "Well, they'll come anyway, so why worry about the best?"

That is wrong reasoning anyway you want to construe it—whether it refers to the movies or a brand of dry prunes.

They won't come anyway, and the manager who entertains with the laxidical philosophy concerning the human animal sooner or later will find it out to his sorrow if not his regret.

HOLLYWOOD Sights and Sounds By ROBBIN COONS

HOLLYWOOD.—It's all very well to jest about Hollywood's taking love lightly, but you could not prove it on a Frank Borzage set.

In Borzage love scenes the tender passion has the accent on the adjective. The hackneyed cliché is a matter of ecstasy with decided spiritual overtones. The business runs briefly on the screen, and then the characters go about other deeds of the story.

But on the set a love scene is a fair part of a day's work.

Borzage the other day had Robert Taylor and Margaret Sullivan rehearsing one of those passionate tendernesses. The scene was in their little attic apartment, the Savannah Indians. Lanning was the fourth Boston hurler to go the distance. The others were Lou Feete, Jim Turner and Danny MacFayden, regular starters.

M'LAGLEN STAR AT BROADWAY

Victor McLaglen and Brian Donlevy, with Louise Hovick, head the cast in "Battle of Broadway" opening tomorrow at the Broadway theater with "Rose of the Rio Grande."

Directed by George Marshall, the story of "Battle of Broadway" concerns two steel workers who declare a truce when their employer asks them to break up his son's romance with a chorus girl.

A legend a hundred years old, the romance of a Mexican Robin Hood, is the theme of "Rose of the Rio Grande." Starring Movita, lovely senorita playing her first Latin role, the musical saga of a young nation in the throes of revolution brings back to the screen many old favorites, including Antonio Moreno, and introduces a new singing star, romantic John Carroll.

The story shows Mexico a hundred years ago.

Broadway Books 'Joy Of Living'

The problem of a "sponging" family is entertainingly handled in "Joy of Living," new musical with Irene Dunne and Douglas Fairbanks, Jr., in the top roles, which will open at the Broadway theater a week from tomorrow.

Miss Dunne portrays a successful musical comedy star. Alice Brady, Guy Kibbee, Jean Dixon and Eric Blare are in the cast.

The second feature will be "The Black Doll," Crime Club mystery with Nan Grey, Donald Woods and Edgar Kennedy.

'Flash' Gordon Coming to State

One week from today "Flash Gordon's Trip to Mars," a new serial, will start at the State and promises much, especially for the children. Next Saturday's matinee the theater will give 100 "Flash Gordon" pistols to the first 100 kids in line for the performance. Twenty-five "3-Stroke" motion picture machines also will be given the kids who get the lucky circulars at the door. Every child attending will receive a free ice cream bar. There will be a drawing on the stage.

Another Cinderella Girl in Hollywood

Another Cinderella story began in Hollywood when the much-coveted role of Diane Turpin in Paramount's "Spawns of the North" went to a young and unknown actress. The girl is Louise Platt, 21-year-old recruit from the New York stage, who has been in Hollywood only a few months.

"Spawns of the North" company now is shooting scenes on the beach at Newport and Balboa. Most of the exterior work will be done there.

Ending Tonight, Broadway Screen

A gripping and unusual story is told in "Over the Wall," which shows for the last time tonight at the Broadway theater along with a second feature, "He Couldn't Say No."

Between eighty and one hundred guests were invited to a delightful at-home and shower complimenting Miss Henrietta Heemstra this afternoon when Mrs. James Nuckolls, Miss Hester Covington, and Miss Frances Nuckolls feted the bride-elect of Cardwell Oglesby of Boston. The charming spring affair was held in the Broadway West-

Decorated with colorful blossoms by its hostess, Mrs. Mary Jane Wood, and by the party hostess-trio.

Miss Covington was unable to fulfill her hostess duties at the last minute, and Mrs. Ernest Layton graciously took her place, wearing a lovely gown of rust-bued lace. EASTER OUTFIT DOESN'T BOTHER FIRST LADY

NEW YORK. (AP)—In less time than it takes most women to buy a pair of gloves, Mrs. Franklin D. Roosevelt today bought two Easter costumes.

She chose a fair weather outfit, and one to wear should the day be stormy.

Her fair weather hat is a navy blue sailor of shiny straw with a rolled, medium brim and crown, both edged with white pique.

With it goes a navy blue costume suit of sheer silk, with a white blouse and a three quarter length coat trimmed with a white pique lapel flower.

She'll wear white gloves with it, and carry a white handbag. The other outfit is a navy blue straw tricornie beret and a flowered silk print dress under a navy blue wool cape coat.

Mrs. Roosevelt looked at only three hats. The one she didn't take was a Gibson girl model.

Dining room chairman was Mrs. Paul Bailey, and her assistants were the Mesdames Corallyn Thompson, M. C. McKerley and Miss Janet Humphrey.

CHAT AWHILE with BETTY

Some people may believe that they can't repeat their luck, but Lawrence Coffing would only say, "Third time's a charm." He made a hole-in-one for the third time on the same hole at the Country club last week-end.

A rival to little Mrs. Hall and her svelte yellow Cadillac appeared this week. Aristocratic Mrs. J. P. Baumgartner and his wife formed Charlie appeared in a snazzy "6" of luscious gunmetal blue, and it has a back seat wide enough to stretch a broom's length across its breadth! As someone said, if Mrs. H. was Voguish, Mr. B. is Harpersish.

Bon mot of the week: In defining a certain local musician's temperamental nature, it was referred to as 98 per cent temper, and 2 per cent mental. Do you like it?

Funny story of the week: Although the Ogle-Harrison-Finley humor-feud is on the wane (scuse, please), the first-mentioned made tentative forward gesture last Sunday.

Out tagging on the Harrison yacht "Alwayne" were five young men. Drowsy by the sunlight, Dr. Larry Cameron took himself off for a nap, and while he slept, a slippery banana was caught. Without hesitation Joel Ogle plunked it down on the doctor's chest and arranged his arms so that they clasped the denizen of the deep to his bosom.

In just five minutes, the slimy cold penetrated, and the doctor awoke with a whoop. Proving that evil will out, he too had no hesitation—and heaved it in a fish-net fashion upon—Mr. Ogle! Such is reputation.

Miriam Smith, formally Mrs. Carleton Smith, and even more formally Sammie to the whole town, has just been named chairman of Junior Ebells' annual spring dance. She is shown tucked

JAYSEE COEDS MAKE PLANS FOR SPRING DANCES

Plans for coeds' social events of the year, spring formal, are vying with Fiesta Day preparations for Santa Ana Junior college women's service clubs during the spring season.

Movs gathered at the home of Miss Mercedes Kellough for a pot-luck supper and informal business discussion recently. It was decided to hold their formal dinner dance May 27 and Miss Evelyn Richards was appointed to head the committee. Mr. and Mrs. John H. McCoy will be guests at the affair.

Formal initiation was postponed until after vacation when it will be held at the Orange home of Miss Henrietta Rurup. Miss Kay Kleppe, who is chairman in charge of the Fiesta booth, and Miss Richards, float, gave their reports to the group.

Las Meninas will hold their annual spring formal May 6. Miss Barbara Spears is in charge of music arranged by Harry Wham's orchestra. Miss Eileen Schmidt was named to plan the club's float.

April 30 will be the date of Las Gitanas' formal dinner dance. Because of the tippy-doodle dance was held at the time of regular meetings, the club will make definite plans for Fiesta and the dance at their next meeting.

Sisterhood of Spinsters will hold its formal affair May 13 as a roof garden dance in Long Beach. Harry Wham and his orchestra will furnish swing tunes for the occasion.

Persons taking part in the play are Charles Helgeland, Margaret Sullivan, George Brown, Isabelle Relistab, Allan Howell, Norman Haskell, Eloise Sullivan, Fern Hill, Dick Brown, and members of the young people's and adults' choirs.

EASTER TALKS BY PASTOR

The Pain and Passion May Not Die" is the title of the first of the two Easter sermons which will be delivered at the Unitarian church of this city by its minister, Julia N. Budlong. "Palm Sunday symbolizes the zenith of the earthly success of Jesus. After it followed the swift denouement — to torture and desertion and the tomb. Easter Sunday symbolizes a triumph which cannot be thwarted, because it is a spiritual triumph, beyond the touch of hating mobs or zealous officers. The drama of human suffering, and the spiritual victories which can be obtained from it, is among the oldest human conceptions. That is what the Easter pageant symbolizes.

The Easter story was encased in every mystic cult of the ancient Greco-Roman world, and had been inherited by them from antiquity more ancient than writing and language. And it will last for as long as men and women feel pain and passion, which will be for as long as our species endures. We may come to have a better word, but pain and passion are felt by contrast and the easier our environment the more swift will be our reaction to discomfort and failure. So the fruits of the spirit are destined to be our inheritance forever."

In the evening the final lecture by Wilson Frith of Dana Point will be heard at 7:30 o'clock. Dr. Frith, director of the Institute of Self-Realization, of his city, has filled the last nine Sunday evening services with lectures on the great prophet of enlightenment and on three religious problems of the day "What is God?" "How May We Know God?" and, tomorrow evening, "The Meaning of Prayer in an Age of Science."

LOCAL NEGROES IN PAGEANT

Fifteen leading parts in the pageant, "Pearly Gates" will be taken by local negroes, when the production is given Monday night at 8:15 o'clock at the high school for the benefit of the building funds of the two Santa Ana negro churches.

Six guardian angels will be Ruby Moore, Irene Clark, Earnestine Anderson, Gloria Buckahana, Rosa Ealey and Clea Stone. Jenetta Sterling will take the part of the pilgrim whose eyes are fixed upon the cross. Earl Clark will portray a wayward traveler while Anna Williams Wyatt will be another pilgrim. Letter Clark will take the part of Mary Jones, William Anderson of the blind man; and Lynwood Young of another pilgrim.

Classmates will be Ovidia Burks, Louis Eley, Doralee Burks, Marjorie Brinson, Marvelle Burks and Beatrice Petty, while Anna Mae Burks will be one of the accompanists at the piano. The large chorus of voices that will sing spirituals and hymns during the performance will be composed of local negro residents.

SANTA ANA CHURCHES WELCOME YOU SERMONETTE

(ON THIS WEEK'S CHURCH SCHOOL LESSON)

By Glenn L. Thorne

A leading purpose in the days of the public ministry of Jesus was the training of the twelve apostles for leadership in the church after His departure. At the time of this week's lesson (Mark 8), they had been with Him for two years and had observed His work. But it seems He has come to the time when He is to change the content of His teaching and so He gives them something of an examination to see what progress they had made after being with Him. So He goes on a trip with them that they may be more alone.

In verse 27 we have His first question: "Whom do men say that I am?" And what article of faith is more essential than the one relative to the person of Jesus Christ? Their answer was "John the Baptist, but some Elias, and others One of the prophets."

Today's answer might be "A good man," or "an impostor," or "a fictitious character."

But the essential question is more than what others may believe. The real test is what we believe. So He asks "But whom say ye that I am?" Peter as spokesman says, "Thou art the Christ, the Son of the Living God."

Jesus commends Peter, tells him this truth has been revealed to him by the Father in heaven.

Jesus now began to give special attention to His coming death in His teaching. The twelve could not understand this, and Peter (not hearing from

heaven this time) rebuked Him. He had no conception of the cross as belonging to Christianity, and Jesus had to reprove him. The cross is essential to Christianity and in verses 34, 35 we read where Jesus called the people unto Him, and gives the Christian—the true philosophy, of life. He says, "Whosoever will come after me—take my life for a pattern and example—let him deny himself, and take up his cross and follow me." How different is this from the world's philosophy of self-realization, self-determination, self-expression. Jesus continues, saying that he who lives alone to save his life shall lose it, but he who shall put Christ first shall save it. Queer philosophy? Not to the one who knows Him!

SAILING SPEEDS . . .
No America's Cup yacht contender ever approached the world's record for speed in sailing ships set 83 years ago by the Donald McKay-built James Baines, 2515-ton clipper ship.
Owned by the Liverpool concern of James Baines & Co., she logged 21 nautical miles an hour on June 18, 1856, holding that speed for several hours.
The James Baines made nau-

tical history on Dec. 16, 1854, when she cleared the English channel to start a record run of 58 days to Hobson's Bay, Melbourne, Australia, a record that also still stands.
And, on her maiden voyage from Boston to Liverpool, she hung up a sailing record of 12 days, 6 hours, since equaled by her sister-ship, the Lightning, and by the British tea-clipper, Thermopylae. Most famed builder of clipper

ships was Donald McKay of East Boston, Mass., yet he was not the originator of the clipper hull. His 2515-ton James Baines was 266 feet overall, with a 44 feet, 9 inch beam. She was 29 feet deep.
To the same specifications, McKay built the famed clipper, Flying Cloud, in 1851. Twice she rounded the Horn from New York to San Francisco in 89 days, remarkable sailing time.

Reorganization Bill Goes Back

The Roosevelt administration will gain in the long run, we believe, from the return of the reorganization bill to committee by the house.

In sending the bill back to committee, the house merely did what the senate should have done, and what it obviously planned to do, except for the pressure of FDR's personal pleas and Postmaster General Farley's stinging patronage whip.

There was entirely too much uncertainty about the exact effects that the original bill would have toward enlarging presidential powers at the expense of congress.

In a practical democracy like ours, it is important for the great masses of the people to understand just what a piece of legislation contemplates.

Now that the bill has been deferred, there will be a chance, we hope, to give the public a clearer picture of exactly what efficiency and economy can be accomplished by reorganization of the executive branch.

If the idea is basically sound, the proposal can be reshaped in such a way that all possible efficiency and economy will be obtained without a sacrifice of too much power by congress.

It is true, of course, that much of the opposition to the bill was of a blind partisan nature and that this opposition probably will continue against any new bill that might be offered as a substitute.

But we dare assume that the Farm Bureau Federation, National Grange, Railway Brotherhoods, American Federation of Labor and other organizations which have generally worked with the administration on other legislation, will readily consent to a new draft that properly protects the authority of congress and sets forth more clearly the changes planned.

The administration and the country will be real gainers in the long run, it seems, from the recommittal of the bill.

Germany has created the classification of "honorary Aryans." That lets in the Japanese, no doubt.

Danger On the Highways

Worst secondary effect of the shocking tragedy that overtook two Berkeley women in Texas will be the fear that it will instill in all women who are accustomed to motor alone, and in their relatives.

Probably hundreds if not thousands of vacation motor trips planned by wives and daughters are being canceled as they, or their fathers or husbands, read of the Texas horror.

Yet it happens not once in 10 million times and it could just as easily happen to a woman who had ventured not more than 10 miles from home.

There will be more fire-arms carried on the highways now than ever before and their sale to women in particular will increase. And the hitch-hiker will be more shunned than ever, not to mention the hapless motorist who breaks down between towns.

For the honor of the West and its famed open spaces, all pray for the speedy capture of the fiends who committed the Texas crime. Meantime let us remember the hundreds of thousands of similar journeys made in complete safety.

Now beginneth "the glorious climate of California," decked in wild flowers and worshiped by the birds.

Lewis Skips a Point

John L. Lewis, in his radio address to the British public, declares it is time for business and labor to co-operate.

"Labor is willing to co-operate; let the leaders of the nation's business step forward," he urges.

A fine declaration, and one that is generally applauded. But Mr. Lewis, in his entire speech, very pointedly fails to mention any of the lawlessness of recent years which has made such co-operation impossible.

How about the sit-down strike? He doesn't mention, nor repudiate, this illegal seizure of property which paralyzed some of our greatest industries the past year. His chief lieutenant in the C. I. O., Homer Martin, only recently declared that "the sit-down strike will remain a potent weapon" in labor fights.

Until Lewis, as head of the C. I. O., specifically repudiates such lawless weapons as the sit-down strike, he cannot come to the conference table with clean hands. If he is sincere in his desire to bring labor and capital together he will start with reforms of his own policies.

We Laugh Last

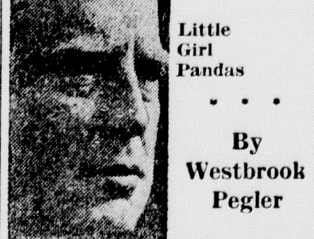

Southern California—and particularly Orange county—can absorb all the jibes the eastern scoffers can make anent our recent dampness. We always—well, almost always—have the last laugh, no matter how sorry Jupiter Pluvius may have made our predicament seem early in March.

This year's last laugh—which we invite the easterners to answer—comes in a report from the U. S. weather bureau at Los Angeles, which could hardly be subsidized by the chambers of commerce.

Says the weather bureau: "The recent winter was the warmest since the bureau began keeping statistics 17 years ago. Only 19 frost nights were recorded, slightly more than half the 35-year average." Atoning for last year's frost, no damage was done to Southland crops by frost this year.

Yes, the easterners would swap house-heating bills with us any time.

Fair Enough

NEW YORK.—News of the capture of four giant pandas in China reminds me of a hunting experience which I must not forget to relate to Col. Theodore Roosevelt, Jr., some night before a good crackling fire at the Ad-venturers' club.

There are said to be three males, or toms, among the new catch—a fact which should relieve the panda shortage here. Without bringing sex into this in an ugly manner, it is permissible, I think, to observe that among most animals, and particularly in the cat family, to which the panda belongs, friendship ripens into love very readily, and to hope that this is one of the panda's traits. We did have two pandas in this country until last week, when one died, but the situation was rather hopeless, anyway, as they were both little girls, and having two little girl pandas is like having two left shoes.

Several years ago Colonel Roosevelt led an expedition into the wilds of China looking for a panda, apparently under the impression that a panda was a sort of dragon, for the adventurers all grew whiskers and looked like General Grant by the time they came out lugging the pelt of a little thing which they had surprised in its sleep and shot.

CROUCHING TO SPRING
Just as young Ted was about to be reported that he claims the panda was not asleep but crouching to spring and that he did write an interesting book about his long walk in China.

After that a lady named Mrs. William Harkness, Jr., thought the two little girl pandas and brought them back alive, and the accepted method of trapping seems to be to set out a saucer of milk and a catnip mouse and say, "Kitty, kitty, kitty, kitty!"

Well, one day several years ago my friend Paul Gallico brought Mrs. Gallico into town from the suburbs to be near the hospital when their baby came and, having been told that lady's every whim should be humored at such a time, he popped into a high-toned pet shop to buy a cat just because Mrs. Gallico remarked that it was funny.

"I want that cat in the window. Wrap it up. How much?" he said and the guy said, "That is a genuine imported Siamese cat—\$75."

My pal spun around three times but bought the cat and a wooden cage and took it home by hand to the hotel where they were stopping. There he opened the cage and with a wild cry of "Pff-t! Mirow-ow!" the brute leaped across the room into the fireplace and up the chimney. Seventy-five bucks' worth of cat!

"EXCUSE ME"
Well, Paul called the manager and the engineer, and he himself went from floor to floor knocking at doors and rooms and getting insulted by retired Edgewise and nels and haughty old dames from Boston with mustaches and whiskers.

"Excuse me! Could I look up your chimney for my cat?" he would say and they would all say "The best! Be leaving, house, or I shall call an officer!"

So that night while the rest were playing bridge, I went to the drug store and got a can of sardines, a bottle of milk and some catnip and set it on the hearth, and nothing happened. The rest of us had gone home. The Gallicos were turned in and just going to sleep when he hears a terrible spitting and yowling and crashing in the sitting room and went tearing in there in the dark, felt over a chair and landed on the hearth in a dive, where he slammed the fire screen over the opening.

CUT AND BLEEDING
All cut and bleeding, he then switched on the light, and there was this dizzy cat bouncing all over the place and knocking down vases and things and squawking its head off. Paul finally trapped it in the cage and then discovered that his living helpmate was crying.

"Paul, do we have to keep that damned cat?" she says.

"No, Puddin'," he says. "I thought you wanted it."

"Me?" she says. "It's a terrible cat. I just said I thought it was funny."

The guy had told Paul that if he didn't like the cat he could return it, so next morning Paul takes the cat back, and the guy says, "Oh, well, what I meant was you could apply the \$75 toward the purchase of some other pet."

But everything that had cost more. Even a waltzing mouse was \$200, parrots \$100 and so forth.

Paul realized he was stuck, selected a Boston bull at \$150, paid the guy \$75 more, and that night took the dog out for the air in Central park. He slipped the leash, the dog tore off in the dark, and the last he ever saw of the mutt and his \$150.

Easy go.

The Merry-Go-Round

Not a Single White Rabbit in Roosevelt's Hat To Meet Recession; Not for Further Spending

WASHINGTON.—Behind the scenes two facts stand out as a result of the President's pondering and conferring at Warm Springs:

1. He is as much at sea on a program to combat the recession as he was before he went to Georgia.

2. His liberal advisors, despite all their pleas and arguments, still have not sold him on a new large-scale spending plan.

From his studies at the quiet Southern retreat, Roosevelt returned to Washington with a much more realistic understanding of the seriousness of the economic crash. He is now aware how greatly Secretary Morgenthau's coterie of master minds misled him with their pipe-dream of a spring business upturn.

He is also aware that, because of widespread disillusionment and resentment, the administration faces possible loss of the house in this year's congressional elections.

But, beyond frankly facing these unpalatable facts, the President got no further. What to do about them, or how to do it, still await further development—if any.

The President is edgy and bitter. He is angry at his political foes, and firmly convinced that business deliberately is seeking to wreck his administration. His lashing out at the South in the Gainesville speech, and the mid-night letter hotly denying dictatorship ambitions, were manifestations of his pent-up temper.

BROAD-GAUGED RECOVERY

His left-wing counselors hoped that it would boil over into a broad-gauged recovery offensive, but their hopes have failed to materialize. The President is not enough under the collar, but except for his verbal flare-ups has done nothing concrete to strike back at his political and business opponents.

All that is in the works right now is a possible recommendation to congress that the \$1,000,000,000 relief appropriation for the new fiscal year be increased, and that the Woodrum amendment, appropriating WPA funds over a 12-month period, be repealed so as to permit their unrestricted use.

Beyond that there isn't a single white rabbit in his hat.

A controlling factor behind the President's hesitation to embark on more big spending is his strong feeling that big business would skim off the cream and the nation's economy would not really be benefited. He is convinced that this is what happened to the first New Deal recovery program.

Roosevelt believes that big business, through monopolistic control of prices, drained off the bulk of the billions poured out by the government to revive and stabilize the economic system. And while they were pocketing huge profits, business leaders were singing hymns of hate against the administration and him personally, clamoring for economy and tax reductions.

When the government took them at their word and clamped down on spending, the almost immediate effect was the recession. The President feels the slump was due to the absorption of most of the recovery money by business men,

and their refusal to carry on when expenditures were halted.

In one of his private talks at Warm Springs the President remarked that what he was looking for was a simple recovery formula, one that would enable the government to revive business without permitting business men to grab off all the gravy. He added that he had no idea how this could be done, and none of his advisers was able to offer any suggestions.

WINCHELL AND ROOSEVELT

Franklin D. Roosevelt, Jr., toured New York the other night in Walter Winchell's car, especially equipped with police radio. The ace Broadway reporter has a hobby of following police calls to see what excitement develops.

As the pair started out, Winchell was cracked to young Roosevelt:

"I hope we don't crack up tonight. If we do you'll get all the headlines."

For three long years Henry Bascom Steagall, chairman of the house banking committee, sought to block the Wagner Housing act. Repeatedly he stalled action by holding the measure in his committee.

Finally, however, under public and White House pressure, Steagall no longer could dodge the issue and had to go through the motions of taking a stand. He did this by slapping his name on a bill that was really the work of former Representative Henry Ellenbogen of Pittsburgh, who had worked with Senator Wagner for several years drafting the legislation.

Steagall brushed all this aside, and as chairman of the committee considering the legislation he insisted that it bear his name. In order to speed the bill, Ellenbogen bowed gracefully. After more dallying by Steagall and sharp White House prodding, the measure finally was enacted.

The other day the U. S. housing authority concluded its first batch of contracts for slum clearance projects. Their signing was made a ceremony at the White House, with the President participating and a corps of cameramen snapping the event.

In the front row stood Steagall, big as life and basking in the warmth of the bright limelight.

NO COMPULSORY STUDY
Mrs. Roosevelt favors college courses on the causes of war, but does not favor "compulsory peace studies."

Asked by Mrs. Beulah H. Hooks of Florida if she didn't think cause-of-war courses would "help discourage fighting," the First Lady replied:

"I am not in favor of a mandatory course on any subject except such fundamental things as are essential to the acquirement of all knowledge. I think, however, it is an excellent thing to make available to young people a course in history which will deal with the causes of war and the effects made in the past to obtain peaceful relationships..."

The Mailbag

Public opinion, or what somebody in office imagines to be public opinion, is our ruler. If public opinion is active, the politicians and people sit up and take notice. There is a definite need for public opinion. Honest, intelligent, fair discussion of our problems is immensely useful. So that every citizen may have his say and contribute to the formation of public opinion, The Journal invites letters to The Mailbag. Please limit communications to 350 words.

AN UNFAIR LAW

To the Editor: The would-be-to-be dictators of Santa Ana were struck a good blow under the ribs when Superior Judge H. G. Ames not only decided that the Sunrise edition of the Santa Ana Journal is a legitimate edition of this paper but that this new edition is a decidedly serviceable newspaper. It is to be regretted, however, that the court did not see fit to take advantage of the opportunity to rule on the constitutionality of the Santa Ana handbill ordinance. The only comment made by the judge on this issue was that he considered police supervision of the distribution of handbills necessary because of the likely accumulation of inflammatory paper and other attending nuisances. Unfortunately, the right to distribute reading matter under such supervision was left undecided. This means that when an occasion arises in which it is the wish of an individual or of a group of people to circulate economic, political, religious or other civic facts, considerations or decisions among the people of Santa Ana the only way in which such distribution can be made is through the use of the mail or an established circulating newspaper. This restriction places any news not in accord with the opinions or policies of the publishers of such established newspapers at the disadvantage of having to be printed as a paid advertisement, the cost of which publication is often prohibitory to the author. The recent decision of the United States supreme court on the unconstitutionality of ordinances restricting the distribution of reading matter, as given by Chief Justice Hughes, should be immediately recognized by local courts trying such cases as arise from our unfair handbill ordinance.

Even though at times it may be possible to obtain from the police department permission to distribute certain types of reading matter throughout the city this procedure is undesirable since such authority constitutes a censorship which no person or group of people deserves in this democratic nation. It is evident that there is little value in the right of free press while the accompanying right of circulation is curtailed.

DEFENDS FDR

To the Editor: May I be permitted to express a few rational thoughts prompted by a letter in your paper recently?

What a disgruntled, ungracious person is F. E. M. The attitude he bears toward the President of the United States reveals antagonism in every department and is uncalled for.

He is blind and deaf to the many fine qualities and principles of the President. The Golden Rule in his life is ruled out by rule so much needed among Christian people today because of the deplorable foreign situation.

I am heartily sorry for F. E. M. who has allowed himself to grovel in the dust, instead of the President's way. "Hitch Your Wagon to a Star."

What Other Editors Say

FOR SAFETY'S SAKE

Careful drivers, reading their newspapers, may turn away from news stories and editorials dedicated to the cause of safety. Old lessons and warnings, they may feel, have been given too much of repetition.

Yet, a largest factor in reducing the number of accidents is the newspaper. There are words which must be repeated and hammered home, words to meet the new-comers in the driving business and words aimed to sink into mental soil which needs a deluge before it may absorb.

In its Chicago meeting the National Safety council credits the newspapers with leading role in highway safety efforts. It says they have saved 1800 lives since November, and whether it is right or not, statistics are the most comprehensive and reliable. News papers are not obligated to preach safety day in and day out nor do the many agencies and individuals have to give time and money to the cause. Our safety council has nothing to gain for itself, it seeks to reduce injuries and fatalities.—Oakland Tribune.

CARNEGIE'S

You bridge players who follow the Culbertson system, may be interested to know that Ely Culbertson, whose name is a synonym for contract bridge, makes half a million dollars a year teaching the Great American Public to play the game.

Was Culbertson trained for the teaching of bridge? No, back in 1922 he had not the slightest idea of what bridge was going to mean to him. The son of a Scotch Presbyterian mining engineer, he had been taught that cards were sinful.

MAKES A FORTUNE

His father made a fortune in Russian oil, but the Soviets confiscated his wealth; so when young Culbertson finally landed in America from Europe he had but \$20 in his pocket. But hope beat high in his heart. His ambition? To become a professor of sociology. But he couldn't get a job.

Next he tried selling coal but failed at that. He tried teaching French. He failed at that. He tried assisting his brother, who was a musician, again he failed. Then he switched his restless energy to the game of bridge. Since Ely Culbertson is the type of man who throws himself wholeheartedly into whatever interests him, he delved deeply into the game and held so many post mortems that he was a bore to his companions.

WHAT HE LEARNED

He worked out the answers for himself—and, practical-minded, he wrote a book about what he had learned. He wrote five books. Then he awoke one day to find himself a bridge expert, which he had been suspecting for some time he eventually would become. Other people were surprised. He wasn't for he had developed an aim as he played and he had stuck closely to it.

Out of his half a million yearly, Culbertson spends somewhere around \$50,000 in answering the questions of those who write to him from every city and town of any size in the world.

Use Culbertson as an example. He liked teaching. He thrashed around until he found something to teach in a field where a teacher was needed. If you have made up your mind you like a certain kind of work, get at it and stick to it.

SUCCESS

That will help success to come your way, though it may come to you, as it did to Ely Culbertson, through a different channel than you first anticipated.

Had Napoleon Bonaparte been great enough to recognize all his talents and realize what they could mean to him, he might have accomplished his desire and established a United States of Europe, and the course of the world would have been changed.

Napoleon had a clever way of turning conversation to his own advantage, but he was not truly clever. He did not make people like him! In speaking of the charm which Napoleon could exert, but which he seldom did, Lord Keith, British admiral, said "Damn the fellow! If he had obtained an interview with his Royal Highness, George IV, (then Prince Regent) they would have become warm friends."

(
